

2024 STUDENT ELECTIVE AWARDS

**Deadline to apply:
5pm on 8th March**

THE
SCAR FREE
FOUNDATION

THE DETAILS

Every year, the Scar Free Foundation offers elective awards worth up to £1,200 to support research projects focusing on wound healing and scarring conditions.

The awards provide students with the opportunity to broaden their perception and experience of research.

The electives consist of a 4–8-week supervised period in one of the following disciplines:

- Plastic and reconstructive surgery
- Burn medicine and care
- Craniofacial care and treatment

Our 2024 Electives are offered in conjunction with 3 of our Partner Member Organisations:

THE CRANIOFACIAL SOCIETY
OF GREAT BRITAIN AND IRELAND

BAPRAS

British Association of Plastic
Reconstructive and Aesthetic Surgeons

WHO CAN APPLY?

We have 3 electives available for medical, dental, pharmacy, paramedic, nursing, psychology, dietetics, and speech and language therapy students.

All projects must take place in the UK and Ireland.

Previous recipients of our funding have gone on to undertake further research training and PhDs. Some have become NIHR Clinical Academic Fellows.

If you're interested in the exciting field of wound healing and have a great idea for a research project, we want to hear from you!
