

## ETRS Annual Meeting 2019

September 11 – 13

Isarforum Munich

**TISSUE REPAIR –  
“FROM BASIC SCIENCE TO  
CLINICAL TRANSLATION!”**

World class science, a beautiful environment, great food and pleasant company are our main goals!

The ETRS has secured a line-up of renowned scientists from various disciplines, in order to share their most recent findings from molecules, to cells, to whole organisms.

**Irv Weissman**  
Stanford University

**Peter Friedl**  
Anderson Cancer Center

**Paul Martin**  
University of Bristol

**Sabine Werner**  
ETH Zürich

**Boris Hinz**  
University of Toronto

**Jeremy Duffield**  
Vertex Pharmaceuticals

***Explore** cutting edge research in the poster and oral presentations given by the experts from today and from the future.*

***Discover** new scientific and clinical developments on mechanisms that lead to tissue repair, wound healing, and regeneration.*

***Engage** with your peers and connect with a world of renowned experts in the field of stem cells, regenerative medicine and immunology.*
